WE HAVE A PRODUCT FOR YOUR NEEDS

Whether it is for avian, bovine or swine farming. CBM Lighting provides an extensive variety of products adaptable to the specific requirements of your production.

With more than 30 years of experience, we know adequate lighting solutions can:

- Reduce your energy costs
- Increase your productivity
- Improve animal welfare
- Increase the quality of your livestock

Our product benefits:

- Quality consistent
- Industry adapted
- Energy efficient
- Resistant
- Durable

The benefits of good lighting on your poultry production

Broiler operations

- 6500K color temperature promotes active behavior and good feeding
- Eliminates shadow areas for an increased flock uniformity

Layer operations

- 3000K color temperature reduces system eggs by improving light spread outside nesting areas

*Choose 18W tubes for ceiling or wall mount and 9W for cage system installations

Advantages of our lighting solutions

Improved Uniformity

Light uniformity is important to maintain flock uniformity. With our V shape lighting Tubes, light is spread evenly over a 225 sq² surface.

Minimal Installation Cost

The tubes are quickly and easily daisy chained one to another. They can be mounted on ceilings, walls, and even inside cage systems.

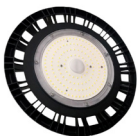

High durability

Minimal maintenance is required.
5 year full replacement warranty.
